Create HTML Images

Create html images:

1] HTML stands for Hyper Text Markup Language.

2] HTML is the standard markup language for creating Web pages.

3] we use HTML to crete front end of the web page.

4] image.html is used for uploading the images.

5] imageprediction.html will showcase the output.

6] We also use CSS(main.js) and JAVASCRIPT(main.js) to enhance our functionality and view of HTML pages.
